12 "§20-2-23.

13 "(a) The Legislature finds the following:

14 "(1) New synthetic substances are being created
15 which are not controlled under the provisions of existing
16 state law but which have a potential for abuse similar to or
17 greater than that for substances controlled under existing
18 state law. These new synthetic substances are called
19 "synthetic controlled substances or synthetic controlled
20 substance analogues" and can be designed to produce a desired
21 pharmacological effect and to evade the controlling statutory
22 provisions. Synthetic controlled substances or synthetic
23 controlled substance analogues are being manufactured,
24 distributed, possessed, and used as substitutes for controlled
25 substances.

1 "(2) The hazards attributable to the traffic in and
2 use of a synthetic controlled substance or synthetic
3 controlled substance analogues are increased because their
4 unregulated manufacture produces variations in purity and
5 concentration.

6 "(3) Many new synthetic substances are untested, and
7 it cannot be immediately determined whether they have useful
8 medical or chemical purposes.

9 "(4) The uncontrolled importation, manufacture,
10 distribution, possession, or use of controlled substance
11 analogues has a substantial and detrimental impact on the
12 health and safety of the people of this state.

13 "(5) Synthetic controlled substances or synthetic
14 controlled substance analogues can be created more rapidly
15 than they can be identified and controlled by action of the
16 Legislature. There is a need for a speedy determination of
17 their proper classification under existing law. It is
18 therefore necessary to identify and classify new substances
19 that have a potential for abuse, so that they can be
20 controlled in the same manner as other substances controlled
21 under existing state law.

22 "(b) The controlled substances listed in this
23 section are included in Schedule I:
