3 By Representative Johnson (R)  
4 RFD: Rules  
5 First Read: 12-APR-11

1  
2 ENROLLED, House Joint Resolution,  
3           URGING ALABAMA DEPARTMENT OF ENVIRONMENTAL  
4 MANAGEMENT TO REDOUBLE ITS EFFORTS TO ENSURE THE SAFETY OF THE  
5 REEF FACILITY IN TALLADEGA COUNTY.  
6

7           WHEREAS, the REEF Industrial Wastewater Pretreatment  
8 Facility located in Talladega County pretreats various and  
9 complex industrial wastewaters from multiple locations and  
10 discharges to the J. Earl Ham Wastewater Treatment Plant; and

11           WHEREAS, the REEF facility consists of two  
12 equalization basins with a reported capacity of approximately  
13 3.5 million gallons each and an aeration basin with a capacity  
14 of approximately seven million gallons; and

15           WHEREAS, due to concern about the levels of Total  
16 Kjehldahl Nitrogen in the water in these basins, discharges to  
17 the Ham Plant were suspended in June 2010, and terminated in  
18 March 2011; and

19           WHEREAS, the basins at the REEF facility are  
20 believed to be full; also there are several above-ground tanks  
21 and numerous movable containers at the REEF facility  
22 containing waste; and

23           WHEREAS, on September 16, 2010, the Alabama  
24 Department of Environmental Management conducted a complaint  
25 investigation at the REEF facility and found non-stormwater

1 discharges seeping into Shirtee Creek northwest of the  
2 facility; ADEM has further determined that the non-stormwater  
3 discharges seeping into Shirtee Creek appear to be originating  
4 from the REEF facility; and

5 WHEREAS, ADEM's report of its investigation states  
6 that chemicals of concern (COCs) from the REEF facility have  
7 been released to soils beneath the facility and it appears  
8 that the COCs have migrated in groundwater through fracture  
9 flow in bedrock and karst-like structure to seep locations in  
10 Shirtee Creek, and these soils represent a potential source of  
11 pollutants to waters of the state; now therefore,

12 BE IT RESOLVED BY THE LEGISLATURE OF ALABAMA, BOTH  
13 HOUSES THEREOF CONCURRING, That, by copy of this resolution to  
14 the ADEM Director, we urge ADEM to redouble its efforts to  
15 ensure the environmental safety of the REEF facility.
