8 CLARIFYING LANGUAGE IN THE GOVERNOR'S PROPOSAL FOR
9 CREATING JOBS.

10
11 WHEREAS, the language in Governor Bentley's "Jobs
12 Bills" can be confusing to some; this resolution is basically
13 identical, only with more clear, straightforward language; and

14 WHEREAS, jobs are important unless they are the jobs
15 of teachers, principals, school security guards, school
16 nurses, school janitors, school bus drivers, and school
17 maintenance workers; and

18 WHEREAS, the state's finances might seem to be
19 critically low, but in the near future government scientists
20 will almost certainly be able to grow money on trees; and

21 WHEREAS, a classroom with forty-five children is an
22 opportunity for our children to make more friends; and

23 WHEREAS, due to our county's overzealous child labor
24 laws, spending money on textbooks and teachers luxuriously
25 spoils our children to their detriment; and

26 WHEREAS, Alabama's children should be helping our
27 economy by working and not learning useless skills such as

1 reading, writing, and arithmetic that are completely
2 unessential in today's economy; and

3 WHEREAS, Alabamians trust that the income tax
4 portion of the Education Trust Fund is actually meant to be
5 Governor Bentley's 2.9 billion dollar piggy bank; and

6 WHEREAS, Republicans correctly believe that public
7 education is a form of welfare that teaches children that they
8 are entitled to receive something for nothing, thus making
9 corporations to be better recipients for this government
10 funded bailout; and

11 WHEREAS, the free market works, so a taxpayer funded
12 corporate welfare program would only make it work better; and

13 WHEREAS, working Alabamians are usually overpaid and
14 in support of donating their easily earned money to their
15 bosses; now therefore,

16 BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF
17 THE LEGISLATURE OF ALABAMA, That the State of Alabama takes
18 taxpayer money paid by working Alabamians into the Education
19 Trust Fund and gives it away to private corporations to create
20 "jobs."

21 BE IT FURTHER RESOLVED, That for purposes of this
22 legislation "jobs" and profits can be considered the same
23 thing.

24 BE IT FURTHER RESOLVED, That no jobs, absolutely
25 zero (0), have to be created with this funding, but that would
26 be nice.

1 BE IT FURTHER RESOLVED, That the Governor can and
2 should whimsically give taxpayer money away to corporations
3 and not be considered intentionally negligent, mentally
4 insane, or ethically suspicious.
