3  
4 ENROLLED, SJR25,

5 COMMENDING MR. BILL GILLEY FOR HIS RECOGNITION  
6 DURING THE 2021 ALABAMA AGRICULTURE HALL OF HONOR BANQUET ON  
7 SEPTEMBER 16, 2021.  
8

9 WHEREAS, with great pride and special pleasure, we  
10 highly commend Mr. Bill Gilley for his recognition during the  
11 2021 Alabama Agriculture Hall of Honor Banquet on September  
12 16, 2021; and

13 WHEREAS, born and reared on a small farm in Chatom,  
14 Alabama, Mr. Gilley is known for using his intelligence,  
15 determination, and the lessons he learned at Auburn University  
16 to prevent the collapse of the poultry industry in the 1960s;  
17 during his time at Auburn University, where he earned a  
18 Bachelor of Science Degree in Agricultural Education and a  
19 Master of Science Degree in Agricultural Education, he was  
20 tutored by poultry science legends, Dr. Dale King and Dr.  
21 Allen Edgar, with whom he worked to develop new disease  
22 control methods; Mr. Gilley also worked with Dr. Dwight Bond,  
23 with whom he developed a complicated procedure that injected  
24 turkey blood into day-old baby chicks to keep the baby chicks  
25 from developing Marek's Disease, a disease that causes birds

1 to develop tumors that make them unfit for human consumption;  
 2 the procedure was 100 percent effective in protecting Mr.  
 3 Gilley's flocks from the disease, and thus he shared the  
 4 guidelines with the rest of the industry, and his program  
 5 became common practice; two years later, a commercially  
 6 available vaccine was developed using the same turkey blood; a  
 7 form of this vaccine is still used today; and

8 WHEREAS, in 1965, Mr. Gilley began working for Red  
 9 Hat Poultry, which later became ConAgra Foods; he worked in  
 10 Auburn, Alabama, for a year, where he developed an  
 11 environmentally controlled house to grow broilers and  
 12 replacement pullets, and many of these management procedures  
 13 are still used today; in 1966, he moved to ConAgra Foods'  
 14 Decatur, Alabama, location, where he eventually managed the  
 15 facility's commercial layer operation; finally, he became the  
 16 Bird Health Director for all ConAgra Foods operations in  
 17 Alabama and Georgia, and it was in this role that he made some  
 18 of his most important contributions to the poultry industry,  
 19 including, addressing not only Marek's Disease, but also  
 20 equally devastating diseases, such as Pullorum and Mycoplasma;  
 21 in 1972, Mr. Gilley moved to Ruston, Louisiana, and started a  
 22 successful, new grow-out operation for ConAgra Foods; 10 years  
 23 later, the company moved him to Enterprise, Alabama, where he  
 24 continued to make contributions to the industry until his  
 25 retirement in 1995; during his retirement, he worked with the

1 Coffee County Extension Service and the Auburn Poultry Science  
2 Department to develop dead-bird disposal by using a composting  
3 method, a system that is still used today; and

4 WHEREAS, Mr. Gilley is a graduate of Washington  
5 County High School, where he was Salutatorian and Student Body  
6 President and where he met his wife of 59 years and counting,  
7 Polly; during the 2021 Alabama Agriculture Hall of Honor  
8 Banquet at the Auburn Marriott Opelika Hotel and Conference  
9 Center at Grand National on September 16, 2021, Auburn  
10 University's College of Agriculture and Agricultural Alumni  
11 Association recognized Mr. Gilley for his contributions to  
12 Alabama agriculture through the years and inducted him into  
13 the Hall of Honor in the agribusiness sector; and

14 WHEREAS, Mr. Gilley is indeed an incredible leader  
15 whose knowledge, diligence, and selflessness continue to  
16 inspire the lives of many; now therefore,

17 BE IT RESOLVED BY THE LEGISLATURE OF ALABAMA, BOTH  
18 HOUSES THEREOF CONCURRING, That Mr. Bill Gilley is highly  
19 commended for his recognition during the 2021 Alabama  
20 Agriculture Hall of Honor Banquet on September 16, 2021, and  
21 this resolution hereby serves as a tribute to him with warmest  
22 gratitude and admiration, along with sincere best wishes for  
23 continued happiness and success in all future endeavors.
